

## **Facilities and Services Available to Students With Disabilities**

### **ADA ACCESSIBILITY ON CAMPUS:**

Indian Bible College works to ensure that every student has equal access to facilities and services, and will provide reasonable accommodations or modifications in adherence with local, state and federal law.

There are several ADA restrooms on campus as well as ADA accessible entrances to most building. There is a full ADA suite in one of the residence halls for students with disabilities living on campus.

### **MODIFICATION OF ASSESSMENT AND INSTRUCTION:**

Students needing special modification for assessment or instruction resulting from physical limitations or learning disabilities must self-elect to disclose a disability with Student Life. This includes but is not limited to orally taking exams, having more exam time, receiving teacher notes, and having special seating. Special modifications will be made so that all students have equal opportunity to succeed at IBC. If a student experiences difficulty learning in the classroom or a functional impairment, contact Student Life for support opportunities. Assistance is available to students requesting tutoring.

For greatest academic success, it's recommended that a student set up services early in the semester. Your privacy is protected; IBC will not provide anyone with information regarding a particular functional impairment.
